Allowable Subject Matter

Claims 1-22 allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not discloses or render obvious a process as called for in claims 1 and 15, in which propylene is produced by metathesis steps. The closest art of record - Schwab et al (6,271,430) – discloses a process as discussed in the previous Office action. However, Schwab does not discloses the feature as recited in step (f) of claim 1 and (g) of claim 15 and the reaction of a portion of c4 and heavier olefins with ethylene in the second metathesis reactions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
